

Positive Behavior Solutions for Families

This six series parent training will provide information for families on how to promote children's social and emotional skills, understand their problem behavior, and use positive approaches to help children learn appropriate behavior. The trainings are designed to give parents key strategies that may be used with all children under 5 years old. (Sessions are not designed to offer parents specific advice for their child's individual issues).

In the last session, parents will be offered a routine guide that offers advice for supporting their children across common family routines.

November 5, 2020

10:00am to 11:30 am

This Workshop will be held via ZOOM

**** este evento será traducido en español***

The Community Support Network (CSN) at Westchester Institute for Human Development is the Hudson Valley's resource for individuals with disabilities, their families, and the professionals supporting them. Our experts are knowledgeable about all of the disability systems serving individuals with disabilities across the lifespan and are available to help YOU. We provide resources, training, direct services, and support and guidance to families, schools, agencies, and individuals themselves on disability related issues and topics.
