Welcome to the New York State Children and Youth with Special Health Care Needs (CYSHCN) Resource Directory!

This directory lists resources for children and youth with special health care needs (CYSHCN), as well as their advocates, caregivers, families, and providers. The New York State Department of Health (NYS DOH) defines CYSHCN as people from birth to 21 years old who require extra health care and support services because of developmental, emotional, intellectual, learning, medical and/or physical conditions. Resources in this directory are specific to the state of New York. The NYS DOH is committed to the well-being of CYSHCN and their support networks. If you have up-to-date information on a resource or if you would like to add a resource to this directory, please visit our Resource Referral Portal (https://airtable.com/shrkMnVbDlJTrylVP).

This directory is funded by the NYS DOH and the resources are maintained (through September 2024) by the three NYS University Centers for Excellence on Developmental Disabilities (UCEDDs). The three UCEDDs are as follows:

- The Rose F. Kennedy (RFK) Center at Einstein/Montefiore
- The Strong Center at the University of Rochester
- The Westchester Institute for Human Development (WIHD).

For more information on the New York State Department of Health Children and Youth with Special Health Care Needs (CYSHCN) Program, please visit: https://www.health.ny.gov/community/special_needs/

| Cattaraugus     | **Cattaraugus County Department of Health**  
                    [https://www.cattco.org/health/services/children-families/special-needs](https://www.cattco.org/health/services/children-families/special-needs)  
Families with physically disabled, cognitively challenged, or chronically ill children often need a wide range of services to meet their child's special needs. The CSHCN Program can help: link you with affordable health care; connect you with community programs; and, can answer questions about how to meet your child's needs. |
| Cayuga          | **Cayuga County Department of Health**  
The Children with Special Health Care Needs program is a resource and referral program for children birth through age 21. The CSHCN program provides assistance to families who may need help accessing various health care professionals and other community resources. |
| Chautauqua      | **Chautauqua County Department of Health**  
                    [http://www.co.chautauqua.ny.us/226/Early-Intervention-Program](http://www.co.chautauqua.ny.us/226/Early-Intervention-Program)  
Children with Special Health Care Needs (CSHCN) is a referral linkage system to provide information to families of children, birth to 21 years of age, who have, or are suspected of having, a serious or chronic physical condition and require health-related services beyond those that are generally required by children. The goal of this program is to assist families who have children with special health care needs to obtain necessary health and community services. |
| Chemung         | **Chemung County Health Department**  
                    [http://www.chemungcountyhealth.org/cshcn](http://www.chemungcountyhealth.org/cshcn)  
Families with physically disabled, cognitively challenged or chronically ill children often need a wide range of services to meet their child's special needs: financial, medical, legal, educational, and emotional. Any child, ages birth to 21, who resides in New York State county who has or is suspected of having a serious or chronic physical, developmental, behavioral, or emotional condition that will require health and related services of a type or amount beyond that required by a typical child, is eligible to participate. CSHCN staff can assist families by providing useful information and making referrals to community and government resources that will help them provide for the needs of their child. Some counties also offer short-term case management and advocacy services on the child’s behalf if needed. |

| Dutchess       | **Dutchess County Department of Health**  
https://www.dutchessny.gov/Departments/DBCH/Nursing-Services.htm  
The Children With Special Health Care Needs Program is a referral service for families with health and related concerns. The Program refers children ages birth to 21 who are diagnosed or at risk for a developmental delay or disability that affects a child physically, behaviorally or intellectually; is ongoing or chronic; and, requires health or health-related interventions beyond what a typical developing child would need. |
| Erie           | **Erie County Department of Health**  
https://www2.erie.gov/health/index.php?q=node/50  
Early Intervention (EI) is a voluntary developmental evaluation and services program offered by New York State and administered locally by the Erie County Department of Health. The County EI Program is subject to NYS regulations. EI serves children from birth through 2 years of age and their families where there is a high risk of delay, a suspected delay in development, or a confirmed diagnosis of developmental disability. Evaluations are conducted to determine eligibility. A variety of therapeutic and support services are offered to eligible infants and toddlers with disabilities and their families. If a child is found not eligible, parents can request developmental monitoring. |
| Essex          | **Essex County Department of Health**  
https://www.co.essex.ny.us/Health/childrens-services  
This program is for families of children ages birth to 21 who have or may have a serious health condition. The program gives information and referral services for families of children who need health or related services beyond those normally needed by children. |
| Franklin       | **Franklin County Department of Health**  
The Children and Youth with Special Health Care Needs Program seeks to improve the system of care for children with special health care needs from birth to 21 years of age and their families. The Program helps to shape public policy so families can get the best health care for their children. |

| Fulton         | **Fulton County Department of Health**  
|                | The Children with Special Health Care Needs Program seeks to improve the system of care for children with special health care needs from birth to 21 years of age and their families. Children served by the CSHCN Program have an illness or condition for which they need extra health care and support services. These children might have a serious or long-lasting physical condition, intellectual or developmental disability; and/or behavioral or emotional condition. This program is strictly a referral program. Services include information about health insurance, community resources, specialists and accessing health care providers. We also work with families to help them meet the medical and non-medical needs of their children. |
| Genesee        | **Genesee County Department of Health**  
|                | This program is an informational, referral and advocacy program for children from birth to 21 years of age who may require health or related services, of a type or amount, beyond that typically required by children. Program assistance does not require eligibility or fees in order to obtain services. Case Management services, funded by the Children with Special Health Care Needs Grant, offer outreach and referral to connect families with appropriate services. We want to help you help your child reach his or her full potential. |
| Greene         | **Greene County Public Health**  
<p>|                | The Children with Special Health Care Needs Program is an information and referral service. We provide assistance to families of children with special health care needs from birth to age 21. Raising a child with special health care needs can be challenging. It can be difficult to identify what services are available to you and to your child. Please contact us with any questions you may have about the Children with Special Health Care Needs Program so we can provide assistance at no cost to your family. |</p>

| Livingston      | **Livingston County Department of Health**  
The Children with Special Healthcare Needs Program administered by the Livingston County Department of Health focuses on children ages 0-21 who have, or are suspected of having a serious or chronic condition that also requires services of a type or amount beyond what is required generally. Key activities of the program include disseminating Child Health Plus information and facilitating access to health care coverage for children who are uninsured or under-insured. |
| Madison         | **Madison County Department of Health**  
The Children with Special Health Care Needs Program assists families of children birth to 21 years who have or are suspected of having a serious or chronic physical, developmental, or emotional condition. Information and referral services are provided to help the family access community resources as well as appropriate health care. The Program helps families of children under 21 years to access available community resources and services; assists families with health insurance needs; and, provides information and referrals regarding disability and health topics. Services are free of charge to families. |
| Monroe          | **Monroe County Department of Health**  
https://www2.monroecounty.gov/health-maternal-children-health-needs  
The Children with Special Health Care Needs Program (CSHCN) is a statewide public health program that provides information and referral services for health and related areas for families of CSHCN. The CSHCN Program provides families with information and referrals to fit their child’s growing needs. Children who are enrolled in the Early Intervention Program can continue to receive help through CSHCN when they “age out” of Early Intervention. |
| Montgomery      | **Montgomery County Department of Health**  
https://www.co.montgomery.ny.us/web/sites/departments/publichealth  
The Children with Special Health Care Needs Program (CSHCN) is a statewide referral system of care for children and their families, linking them to appropriate health and related services to identify and resolve gaps and barriers, and to assure access to quality health care. For all children from birth to 21 years of age who have an identified disability, the following services are available: connect families with community resources and programs; provide support and guidance Information about children with special needs, illness, and disability; research additional resources not available to the family; address concerns and required health or related services beyond what children generally need; employ state tracking system to identify gaps in services for children with special health care needs. |

| Rockland       | Rockland County Department of Health  

The Children with Special Health Care Needs Program (CYSHCN) is an effort to positively impact the lives of children and youth with special health care needs and their families by providing resources needed to access appropriate services. Through the coordination and delivery of medical, educational, and related services identified needs of the child and family are met, thus enhancing the child’s quality of life. CYSHCN assists families with children from birth to twenty-one (21) years of age that have a chronic physical, developmental, behavioral, or emotional condition and require health and related services beyond that generally required by children. The program assists the family through information and referral to various community resources that are child and family specific. Rockland County Department of Health staff can connect your family to support networks that understand the challenges of caring for children and youth with special needs.

| Saratoga       | Saratoga County Public Health Services  

Children and Youth with Special Health Care Needs (CYSHCN) are those from birth to age 21 who require health care or related services beyond regular well care and preventive measures to keep children healthy. CYSHCN is a New York State Department of Health initiative designed to provide information, guidance and referrals to families with a special needs child.

| Schenectady    | Schenectady County Department of Health  
https://www.schenectadycounty.com/CWSN |

The Children with Special Health Care Needs Program (CSHCN) is a statewide public health program that provides information and referral services for health and related areas for families of CSHCN. This program is a referral linkage system to provide for those children ages birth to 21 who have, or are suspected of having, a serious or chronic physical, developmental, behavioral, or emotional condition and who require a health or related service of a type or amount beyond what is required by children generally.

| Schoharie  | **Schoharie County Public Health**  
https://www4.schohariecounty-ny.gov/departments/public-health/preschool  
  Schoharie County Public Health has programs for children with special needs that  
  include preschool and early intervention referrals as well as Child Find, a  
  component of the Early Intervention Program that assures that children at-risk  
  (birth-3 years) will receive the help needed for the best growth and development  
  in the early years. Child Find ensures tracking and screening of children at-risk  
  of developmental delay through ongoing contact with families and the primary care  
  provider. This program can provide direct developmental screenings when no  
  other resource is available.                                                                 |
| Schuyler   | **Schuyler County Public Health**  
http://www.schuylercounty.us/622/Children-with-Special-Health-Care-Needs  
  Schuyler County Public Health seeks to improve the system of care for all children  
  and their families. Our goal is to help shape public policy so families can get the  
  best health care for their children including those who have health concerns or  
  delays which require extra support and services. The Children with Special Health  
  Care Needs Program serves children and their families from birth to 21 years of  
  age who have long term conditions that require support.                                    |
| Seneca     | **Seneca County Department of Health**  
  The program for children with special health care needs performs various  
  functions to assure that children up to the age of 21 with certain disabilities and/or  
  chronic health conditions receive quality care while limiting the financial impact on  
  families. Seneca County Health Department houses this program that connects  
  families with much needed resources. Community outreach at events and through  
  programs helps to ensure that families are aware of the assistance that is there for  
  them.                                                                                |
| St. Lawrence | **St. Lawrence County Department of Health**

Sensory Beans is a parent facilitated indoor sensory gym for children of all ages and abilities in Wantagh. We have found that there is a high demand for recreational activities that supports the needs of all children regardless of ability.
Do For One is a relationship-building program that brings isolated people into greater community life. We selectively match one person with developmental disabilities ('partner') with another person who enjoys a more socially included life ('advocate'). We then support voluntary advocates as they strive to understand, represent, and respond to the interests of their partner.
Because We Can Sports

Agency Name: Because We Can Sports

Agency Description: Because We Can Sports is open to all children with and without disabilities because the organization believes integrating mainstream and special needs children together in team-bonding activities increases every child's growth.

Regional Resource Guide
of the Children and Youth with Special Health Care Needs (CYSHCN) Project
Back on My Feet recruits individuals at homeless or addiction and treatment facilities around the country. These individuals — known as members — commit to run three early mornings a week. Goals are set and achieved with one mile becoming two, two becoming three and so on, and after 30 days with 90%, their first milestone: they earn the opportunity to move into Next Steps. In Next Steps, members work with Back on My Feet program staff to develop a personal road map to independence. Each member attends financial literacy classes and job skills training provided through partnerships with our corporate partners.

Feeding Matters

Agency Name: Feeding Matters

Agency Description: Feeding Matters is the first organization in the world to unite the concerns of families with the field's leading advocates, experts, and allied healthcare professionals to improve the system of care for pediatric feeding disorder through advocacy, education, support, and research.

The Pediatric Feeding Disorder (PFD) ICD-10 Toolkit is a collection of free resources designed to promote awareness, identification, and comprehensive assessment and management of PFD. The Toolkit can be downloaded in its entirety or as individual resources. The Toolkit will be periodically updated and expanded as additional resource needs are identified.
